Preface

These Philippine Bidding Documents (PBDs) for the procurement of Goods through Competitive Bidding have been prepared by the Government of the Philippines for use by any branch, constitutional commission or office, agency, department, bureau, office, or instrumentality of the Government of the Philippines, National Government Agencies, including Government-Owned and/or Controlled Corporations, Government Financing Institutions, State Universities and Colleges, and Local Government Unit. The procedures and practices presented in this document have been developed through broad experience, and are for mandatory use in projects that are financed in whole or in part by the Government of the Philippines or any foreign government/foreign or international financing institution in accordance with the provisions of the 2016 revised Implementing Rules and Regulations of Republic Act No. 9184.

The Bidding Documents shall clearly and adequately define, among others: (i) the objectives, scope, and expected outputs and/or results of the proposed contract or Framework Agreement, as the case may be; (ii) the eligibility requirements of Bidders; (iii) the expected contract or Framework Agreement duration, the estimated quantity in the case of procurement of goods, delivery schedule and/or time frame; and (iv) the obligations, duties, and/or functions of the winning bidder.

Care should be taken to check the relevance of the provisions of the PBDs against the requirements of the specific Goods to be procured. If duplication of a subject is inevitable in other sections of the document prepared by the Procuring Entity, care must be exercised to avoid contradictions between clauses dealing with the same matter.

Moreover, each section is prepared with notes intended only as information for the Procuring Entity or the person drafting the Bidding Documents. They shall not be included in the final documents. The following general directions should be observed when using the documents:

- a. All the documents listed in the Table of Contents are normally required for the procurement of Goods. However, they should be adapted as necessary to the circumstances of the particular Procurement Project.
- b. Specific details, such as the "*name of the Procuring Entity*" and "*address for bid submission*," should be furnished in the Instructions to Bidders, Bid Data Sheet, and Special Conditions of Contract. The final documents should contain neither blank spaces nor options.
- c. This Preface and the footnotes or notes in italics included in the Invitation to Bid, Bid Data Sheet, General Conditions of Contract, Special Conditions of Contract, Schedule of Requirements, and Specifications are not part of the text of the final document, although they contain instructions that the Procuring Entity should strictly follow.

- d. The cover should be modified as required to identify the Bidding Documents as to the Procurement Project, Project Identification Number, and Procuring Entity, in addition to the date of issue.
- e. Modifications for specific Procurement Project details should be provided in the Special Conditions of Contract as amendments to the Conditions of Contract. For easy completion, whenever reference has to be made to specific clauses in the Bid Data Sheet or Special Conditions of Contract, these terms shall be printed in bold typeface on Sections I (Instructions to Bidders) and III (General Conditions of Contract), respectively.
- f. For guidelines on the use of Bidding Forms and the procurement of Foreign-Assisted Projects, these will be covered by a separate issuance of the Government Procurement Policy Board.

Section VII. Technical Specifications

Notes for Preparing the Technical Specifications

A set of precise and clear specifications is a prerequisite for Bidders to respond realistically and competitively to the requirements of the Procuring Entity without qualifying their Bids. In the context of Competitive Bidding, the specifications (*e.g.* production/delivery schedule, manpower requirements, and after-sales service/parts, descriptions of the lots or items) must be prepared to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the goods and services to be procured. Only if this is done will the objectives of transparency, equity, efficiency, fairness, and economy in procurement be realized, responsiveness of bids be ensured, and the subsequent task of bid evaluation and post-qualification facilitated. The specifications should require that all items, materials and accessories to be included or incorporated in the goods be new, unused, and of the most recent or current models, and that they include or incorporate all recent improvements in design and materials unless otherwise provided in the Contract.

Samples of specifications from previous similar procurements are useful in this respect. The use of metric units is encouraged. Depending on the complexity of the goods and the repetitiveness of the type of procurement, it may be advantageous to standardize the General Technical Specifications and incorporate them in a separate subsection. The General Technical Specifications should cover all classes of workmanship, materials, and equipment commonly involved in manufacturing similar goods. Deletions or addenda should then adapt the General Technical Specifications to the particular procurement.

Care must be taken in drafting specifications to ensure that they are not restrictive. In the specification of standards for equipment, materials, and workmanship, recognized Philippine and international standards should be used as much as possible. Where other particular standards are used, whether national standards or other standards, the specifications should state that equipment, materials, and workmanship that meet other authoritative standards, and which ensure at least a substantially equal quality than the standards mentioned, will also be acceptable. The following clause may be inserted in the Special Conditions of Contract or the Technical Specifications.

Sample Clause: Equivalency of Standards and Codes

Wherever reference is made in the Technical Specifications to specific standards and codes to be met by the goods and materials to be furnished or tested, the provisions of the latest edition or revision of the relevant standards and codes shall apply, unless otherwise expressly stated in the Contract. Where such standards and codes are national or relate to a particular country or region, other authoritative standards that ensure substantial equivalence to the standards and codes specified will be acceptable.

Reference to brand name and catalogue number should be avoided as far as possible; where unavoidable they should always be followed by the words "*or at least equivalent.*" References to brand names cannot be used when the funding source is the GOP.

Where appropriate, drawings, including site plans as required, may be furnished by the Procuring Entity with the Bidding Documents. Similarly, the Supplier may be requested to provide drawings or samples either with its Bid or for prior review by the Procuring Entity during contract execution.

Bidders are also required, as part of the technical specifications, to complete their statement of compliance demonstrating how the items comply with the specification.

In case of Renewal of Regular and Recurring Services, the Procuring Entity must indicate here the technical requirements for the service provider, which must include the set criteria in the conduct of its performance evaluation.

[Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidder's statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.]

| Mandate | EO 1037 mandates PRA to market the Philippines as a top retirement destination to boost the country's economy and foreign exchange reserves. The SRRV program offers various retirement options and incentives, attracting retirees globally. |
| Rationale | <p>There is an urgent need to design and implement a strategic retention initiative to address the consistently increasing rate of visa cancellation observed from 2013 to 2023. PRA must invest in building a sustainable SRRV community whose members are happy, contented, and harmonious. By demonstrating genuine care to the needs of SRRV members, PRA can establish a long-lasting and fulfilling relationship, ultimately leading to increased satisfaction and retention within the community.</p> <p>The SRRV holders' positive testimonials about their PHILIPPINE RETIREMENT EXPERIENCE (PRE) is still the most effective and sustainable marketing strategy.</p> |
| Understanding the Retiree Persona | <p>Campaign must consider the persona of retirees in order to provide the most appropriate care program. In a study by Jacob Schroeder (2019), retirees were categorized into various types. The <u>Lost Retiree</u> struggles with retirement transition, experiencing feelings of anxiety and loss, as noted by the American Psychological Association. <u>Lonely Retirees</u> find solace in retirement but may experience loneliness, affecting their well-being according to research from the University of Michigan. The <u>Tireless Mover</u> Retiree is constantly active, embracing a healthy lifestyle with various activities like biking and yoga. <u>Older individuals</u> are advised to aim for 150 to 300 minutes of moderate-intensity physical activity weekly. The <u>Never Retired</u> group continues working due to financial motivations, as suggested by AARP's Life Reimagined survey showing that many plan to work past 65, with some even expecting to work into their 80s or beyond. <u>Superhero Retirees</u> enjoy volunteering, finding it fulfilling and beneficial. <u>Workforce Retirees</u> view retirement as an opportunity to continue working for enjoyment, citing non-monetary reasons as their motivation. <u>Globetrotting Retirees</u> spend their time traveling.</p> |
| Philippine Retirement Experience | <p>The PRE is an offshoot of DOT's Philippine Experience Program (PEP). PRE is bringing the retirees to experience the Philippines' unique blend of warm hospitality in locality-destinations, diverse cultures and rich traditions, and stunning natural landscapes. Retirees will have a quick chance to enjoy a laid-back pace, delicious cuisine, and vibrant local communities that offer a sense of belonging and connection. PRE is about caring for retirees' overall well-being through providing opportunities that promote lifelong learning and a sense of purpose and fulfillment. It is connecting them to social and community networks and relationships.</p> |

PROJECT 1
SENIORS SWING IT!
A BALLROOM DANCE WORKSHOP
Location – Subic, Zambales

Project Profile

The Philippine Retirement Experience (PRE) in Subic, Zambales is a dance workshop. It is not just about learning to dance; it is about rediscovering movement, connection, and a youthful spirit. It is a whole day of dance workshop that culminates to a night of dancing.

Dancing is a fantastic way for elderly people to stay active, healthy, and connected. It offers a wealth of **benefits** that can significantly improve their quality of life.

This study by Singh et al. (2017) showed significant improvements in balance after dance training, suggesting that dancing can be a beneficial exercise to help older adults stay steady and reduce their risk of falls. Irwin et al. (2019) proved that dance can elevate heart rate and contribute to better sleep for older adults. Verghese et al. (2003) studied leisure activities and dementia risk in seniors, and found that engaging in music and dance potentially lowers dementia risk in older adults. Studies like those by Thayer & Fritz (2007) show that music can trigger the release of endorphins, the body's natural feel-good chemicals, lowering stress hormones and elevating mood in older adults.

In this PRE, the resident retirees are lured to the dancefloor to rediscover the magic of footwork, posture and movement. They will learn the Waltz, a dance that originated in 18th century Europe and has become a staple of social and competitive dance ever since. They will learn the Foxtrot's smooth, flowing movements, the Cha-Cha's hip motion and rhythm, and Latin Dances like the footwork variations of Salsa, the side-to-side sway of Merengue, and the sensual and romantic Bachata. They also get to learn the Swing's intricate footwork patterns, throws and spins.
